

# Lord Of The Void

Archgoat

I am the lord of emptiness  
Raised to god by rats and mice  
The worthless weed of humanity  
Praising the blind idiot god  
My son, killed by mortal men  
Called once the messiah  
His mother is the wholly whore  
Why have I been blasphemed

I am the line for the to follow  
The vast sea without the bottom  
The horizon as far as I can see  
I am the lord of the void

I am god  
of nothing
