

And Then Again

Arcwelder

(music arcwelder/words w. graber & s. macdonald)

And hey this is something different - and then again

Now down 'til I can't remember - was it here or there

Time is time that we're always out of - or within like a fool

Now it's not and it's got no answer - like a dead pool

[chorus]

This is a dream - this is a lie

For what it's seems why did we try

If you were here, would you get by?

If you didn't see then I didn't cry

She went out and she didn't come back - it just didn't seem

Wasn't smiling, she was pretending - in what she didn't believe

Caught up in the morning paper - another story gone

He was here and he couldn't answer - but it won't be long

[chorus]
