

# What About Me

Argy Bargy

Government spin tells you what to believe  
Hidden agendas designed to deceive  
Dancing to the tune of the Islington beat  
Myths perpetrated by the Guardian elite

Silent conspiracy, eternal shame  
Another scapegoat to shoulder the blame  
Truth well hidden in a bureaucratic maze  
Out of the limelight and the public gaze

I've gotta, you've gotta, we've gotta stand up and fight now  
I've gotta, you've gotta, we've gotta stop 'em now

What About Me? Who defends my liberties  
What About Me?  
What About You? Who decides what you're gonna do?  
What About You?

Self preservation's the main policy  
Power corrupts and breeds hypocrisy  
Manipulate the press to further the cause  
Encouraged by redundant archaic laws

Elected to speak for the man in the street  
Empty promises safeguard your seat  
The honourable member is a total disgrace  
A matter of time before you fall from grace

I've gotta, you've gotta, we've gotta stand up and fight now  
I've gotta, you've gotta, we've gotta stop 'em now
