

## Feel It

Arno Carstens

come carry me from loneliness  
remind me of what I've missed  
I kill the demons at your door  
Sleep softer than before

Cos if you say you love him  
And if you say you miss me  
I will carry you from your loneliness  
And I will always always be there

Can you feel it?  
It is heaven on earth  
And there's a light around you  
You are burning in the rain

Can you feel it?  
It is heaven on earth  
And there's a wall between us  
You are burning in the rain

If you say you love me  
And if you say you miss  
I will carry you from your loneliness  
And I will always always be there

You can't choose your family
