

Sweet seduction, no introduction Over passionate reproduction Give me action, chain reactions I need love, I need satisfaction  
Try to haze me, It won't phase me Does not compute I may be crazy Risks we're taking New ground we're breaking Uh-oh Uh-oh The walls are shaking

Acceleration, pumping your heart Having your mind delicately blown apart We've got this moment, let's get it right I have the same dreams every night Alright, you feel it Alright, believe There's no limit what we can achieve The end and beginning, the rise and the fall We have the chance to seize it all

Pornographic infiltration What's the equation? I don't know Persuasion, stage invasion Give me love, give me inspiration Come whatever, cos forever Does not compute Let's get together The floor's pulsating There's no more waiting Uh-oh Uh-oh The walls are shaking

Acceleration, pumping your heart Having your mind delicately blown apart We've got this moment, let's get it right I have the same dreams every night Alright, you feel it Alright, believe There's no limit what we can achieve The end and beginning, the rise and the fall We have the chance to seize it all

Alright Alright It's not time to say goodbye Alright Alright This is our moment We're free tonight

Acceleration, pumping your heart Having your mind delicately blown apart We've got this moment, let's get it right I have the same dreams every night (Alright) Regeneration (Alright) If you believe There's no limit what we can achieve The end and beginning, the rise and the fall We have the chance to seize it all
