

Pretty Little Flower

Ashanti

I'm a pretty little flower baby, babe
Ya gotta, gotta be fragile with me, with me
I'm a pretty little flower baby
Don't crush me baby, don't hurt me baby, babe

Can you be my dream come true
It's been a long time that I been waitin' for you
I never wanted to care
Now I found someone that I wanna be my teddy bear
So I can squeeze you when I want
And you can hold me all night long
You're everything I want, you're everything I need
But ya can't take advantage of me

I wanna be your rose in a glass, treat me like a princess
I wanna be your rose in a glass, don't break me to pieces
I wanna be your rose in a glass, treat me like a princess
I wanna be your rose in a glass, don't break me to pieces

I'm a pretty little flower baby, babe
Ya gotta, gotta be fragile with me, with me
I'm a pretty little flower baby
Don't crush me baby, don't hurt me baby, babe
(2x)

I wanna run away with you
I gotta know if you feel the way I do
Ever since that day in June
Your first kiss left me speechless
I wanna know if this is right
And that we'll never have to fight
You're everything I want, you're everything I need
But just don't take advantage of me

I wanna be your rose in a glass, treat me like a princess
I wanna be your rose in a glass, don't break me to pieces
I wanna be your rose in a glass, treat me like a princess
I wanna be your rose in a glass, don't break me to pieces

I'm a pretty little flower baby, babe
Ya gotta, gotta be fragile with me, with me
I'm a pretty little flower baby
Don't crush me baby, don't hurt me baby, babe
(2x)
