

# I Waited Too Long

Ashford & Simpson

It was dim in this room  
Out of patience too soon  
The flow has stopped in my head  
Feel confusion in it's stead  
When will it be lifted  
Why must I be one more day  
Without love, I believe in fate  
But tell me just how long must I wait  
I waited too long

I stand there looking; the tide rolls in,  
Says hello to a lonely friend  
The sound of music from afar  
Makes me a child again wishing on a star  
When will it be lifted  
When will I be fit for love to claim me  
I'm stretching out on the wings of chance  
'Cause I don't want to miss the last dance

I waited too long

Did you wait too long? (4x)

I'm stretching out on the wings of chance  
'Cause I don't want to miss the last dance

I waited too long  
I waited too long  
I waited too long
