

Let It Out

Ashlyne Huff

I like my beats from the boombox
I like them sweet like a sugar shock
I like high tops with my hip hop
Yo, kickdrum
I wanna feel up when I break it down
I wanna see stars when I spin around
I wanna be one with the melody
Yo, turn it up

Hey what's the deal now
You say life's so complicated
You're gonna melt down, but tears are overrated
Hey drop a smile now
Like the beat it's so contagious
Music sets you free so just let it all out

CHORUS:

Hey you you
Get up get up get up and let's dance
Hey you you
Come on everybody and clap your hands
Hey you you
Come on come on come on and get down
We've no time for wasting just let it out

Hey when you're feeling low and you just wanna start over
Gotta look inside your soul
Try to fight it like a soldier
Get on with the show, let the rhythm bring you closer
Music sets you free so just let it all out

(CHORUS)

L-E-T it out!
L-E-T it out, just let it out!
L-E-T it out!
L-E-T it out, just let it out!

(CHORUS)
