Let It Out

Ashlyne Huff

I like my beats from the boombox I like them sweet like a sugar shock I like high tops with my hip hop Yo, kickdrum I wanna feel up when I break it down I wanna see stars when I spin around I wanna be one with the melody Yo, turn it up

Hey what's the deal now You say life's so complicated You're gonna melt down, but tears are overrated Hey drop a smile now Like the beat it's so contagious Music sets you free so just let it all out

CHORUS: Hey you you Get up get up get up and let's dance Hey you you Come on everybody and clap your hands Hey you you Come on come on come on and get down We've no time for wasting just let it out

Hey when you're feeling low and you just wanna start over Gotta look inside your soul Try to fight it like a soldier Get on with the show, let the rhythym bring you closer Music sets you free so just let it all out

(CHORUS)

L-E-T it out! L-E-T it out, just let it out! L-E-T it out! L-E-T it out, just let it out!

(CHORUS)
