Turn Around

Why you holding your head down? Why's your heart so sore? Cause you know that worry Never hurries you through the back door You gotta pick your feet up And get your face off the ground Cause everything's dying If that's all that you can see In this little town

I'm alive now I'm alive now If time is out to get me I won't let it catch me I'm alive now Turn around

Yesterday ain't coming back Tomorrow's not today You've been giving you soul To an empty bowl of faith, yeah You should be taking the top down A party's good for the heart And freedom is calling You're back from falling apart, yeah

I'm alive now I'm alive now If time is out to get me I won't let it catch me I'm alive now Turn around

Now is a favor you've lost But you wanna know what it's like to be found Turn around Turn around

I'm alive now I'm alive now If time is out to get me I won't let it catch me I'm alive now Turn around (Turn around) I'm alive now (Turn around) Turn around (Turn around) Turn around
