

## Oceanus Procellarum (Liquid Tomb)

Astarte

Inside my vision, raise again, my ego  
Forever escape my fate  
I summon the end of skies  
What falls, raise my fear

Arise from Hell  
Through the depths of the earth  
Summon the dead  
From this graveyard earth

Oceanus Procellarum  
Clouds are gather  
Upon horizon  
Shades and shadows around  
Sea remakes it's heavy loud

Oceanus Procellarum  
Thunder lighting  
My darkest soul  
A near death experience  
My senses fade away.

Seeking a sign of existence  
Through the years of pain  
Gather the masses of unborn  
To regain my fate.
