

# Babylon Rise

## Astral Doors

Rise

Babylon rise

I'm the whore of Babylon, come to me I'll sing my song

Prophets try to analyze, am I a tale or antichrist?

Unleash the great sin of Sodom and Gomorrah

Jackals and hounds out on the prowl

Protect yourself, need no one else

Children, unite, let me be your friend

The mother of harlots I am

Babylon rise

Evil is forever

Babylon rise

The resurrection is here

Feed yourself and no one else, the symptom of the world today

Hell is god and god is great, join me now in the fire lake

Democracy's a fake

Say welcome to destruction

A permanent chaos here to unfold

Intolerance and ignorance

Madness divide

Army's on the shore

The lonely invader for sure

Babylon rise

Evil is forever

Babylon rise

The new revelation is here

The mother of harlots I am

Unleash the great sin

The Babylon whore will be a friend of mine

Rise, rise, rise

Don't have to ask myself

Rise

Am I a god or antichrist?

Unleash the great sin of Sodom and Gomorrah

Jackals and hounds out on the prowl

Protect yourself, need no one else

Children, unite

Let me be your friend

The mother of harlots I am
