## **Terminal Spirit Disease**

## At the Gates

Can you feel the pain I feel?
I've lost all sense of what is real
I'm lost, in a world I detest

Can you feel the pain I feel?
This wound I've got will never heal
I'm lost, in the serpents own nest

Oh - set me free - crucify life itself And let your joy be the reality Our suffering life - the dream

Pain, the highest order Scorching the inside of my skin Terminal spirit disease An itch of thirst twisting my tortured nerves

Kill the worm that is depression
Join the leeches of oppression
Impure - twisted - logic they die

Kill the worm that is depression My fevered circle - circle of damnation Consumed by this torment divine

Terminal spirit disease Terminal spirit disease

Your souls condemned to sing of life Must die to be set free
