

# Be With You

Atomic Kitten

You and I  
Two of a kind  
A meeting of minds  
The time of our lives  
A perfect night (A perfect night)  
Outta sight  
As I look in your eyes (Look in your eyes)  
Never felt so right

I really want tonight to last forever  
I really wanna be with you  
I really want tonight to last forever  
I really wanna be with you

Night and day (night and day)  
Come what may  
There's always change  
Nothing stays the same (nothing stays the same)  
Who can say (who can say)  
What will come our way (Come your way)  
Leave it all to fate  
Let tomorrow wait

I really want tonight to last forever  
I really wanna be with you  
I really want tonight to last forever  
I really wanna be with you  
I really want tonight to last for ever  
I really want to be with you  
Let the music play on down the line Tonight

Tonight, Tonight, Tonight

You know I really want to be with you (I really wanna be with you)  
You know I really want to be with you (I really wanna be with you)

The perfect night (The perfect night)  
Outta sight  
As I look in your eyes (look in your eyes)  
Never felt so right

Oooohhhh

I really want tonight to last forever  
I really wanna be with you  
I really want tonight to last forever  
I really wanna be with you

I really want tonight to last forever (Tonight Yeah)  
I really wanna be with you (Tonight Yeah)  
I really want tonight to last forever (Tonight Yeah)  
I really wanna be with you (Tonight Yeah)

You know I really wanna be with you  
You know I really wanna be with you  
You know I really wanna be with you
