

Moment You Leave Me

Atomic Kitten

1. You make me believe

You are the one for me it seems

But now, I've found it hard

The way you treated me, it's mean

Cause time after time I keep changing my mind

And I can't get myself over you (wuhuúú)

R: The moment you leave me

The moment you're gone

I don't think that I could last another minute

But when we're together

There's something so strong

And I don't think that we will ever find a limit

It's going on

2. Each time you were down

I helped you on your feet but then

Just as soon as you were ready too

You leave me on my own again

Cause time after time I keep changing my mind

And I can't get myself over you

R: The moment you leave me...

*: When you lied that you love me

And spoke promises that you couldn't keep

How I tried to believe you when my tears they just cut so deep

And I can't get myself over you

R: The moment you leave me... (3x)
