

Strangers

Atomic Kitten

Everything you do says you're leaving me
Everything you say shows you don't believe in me
How was I supposed to know this was gonna hurt a soul
You and I are strangers in our home
You and I are strangers in our home

Everything I feel proves there's nothing left in me
Everything I hear takes away the breath in me
How was I supposed to know this was gonna hurt a soul
You and I are strangers in our home
You and I are strangers in our home
