

You And Me

Attack Attack!

Far to long now I have been waiting
Waiting for something just to happen
Far too long now I have been thinking
I've been thinkin' you've got the answer to...

...The question is do you feel like your letting go?
The question is do you feel like you've lost control?

Always waiting
Always faking

You and me aren't thinking the same way
And I'm so used to getting my own way
That I'm burning us down tonight
And I swear that no-one is getting out of here alive

Far to long now I have been waiting
Waiting for something just to happen
Far too long now I have been thinking
I've been thinkin' you've got the answer to...

...The question is do you feel like your letting go?
The question is do you feel like you've lost control?

Always waiting
Always faking

You and me aren't thinking the same way
And I'm so used to getting my own way
That I'm burning us down tonight
And I swear that no-one is getting out of here alive

You and me aren't thinking the same way
And I'm so used to getting my own way
That I'm burning us down tonight
And I swear that no-one is getting out of here alive

This is how it goes, this is how it goes
This is how it goes, this is how it goes
This is how it goes, this is how it goes
This is how it goes, this is how it goes

You and me aren't thinking the same way
And I'm so used to getting my own way
That I'm burning us down tonight
And I swear that no-one is getting out of here alive

You and me aren't thinking the same way
And I'm so used to getting my own way
That I'm burning us down tonight
And I swear that no-one is getting out of here alive
