I just wanna fly away
From all of this pain
Things don't feel the same
Feels like I'm to blame
I just wanna fly away
Can't believe you're gone
I feel so alone
Want you to come home...

[Verse 1]
Now I've been sittin' here
Missing you
Thinkin' bout those crazy things
We used to do
And I can't help but think
That its cuz' of me
More than a friend, you were blood, you were family
And I try to stay happy but I can't
I wish that you were here
Things ain't the same
I wish that you would've listened
Should've paid more attention
But now it's to late..

I just wanna fly away
From all of this pain,
Things don't feel the same
Feels like I'm to blame
I just wanna fly away
Can't believe you're gone
I feel so alone
Want you to come home...

I just wanna fly away
From all of this pain
Things don't feel the same
Feels like I'm to blame
I just wanna fly away
Can't believe you're gone
I feel so alone
Want you to come home...

You know that it gets hard for me
Remeniscing bout' what we did
And it's killing me inside
I wish that I could change the past
(But I can't)
I wish that you were here with me
(But you ain't)
I know that things won't get better til' I move on
I wish I could, but the feelings so strong
Wish I had the chance to apologize.
No I never meant what I said that night
But now its too late

I just wanna fly away From all of this pain,

Things don't feel the same Feels like I'm to blame I just wanna fly away Can't believe you're gone I feel so alone Want you to come home... I just wanna fly away From all of this pain Things don't feel the same Feels like I'm to blame I just wanna fly away Can't believe you're gone I feel so alone Want you to come home...
