Gasoline

Audioslave

House is haunted
I just want to go for a ride
Out and on
Before I set this room alight
Left alone forever and for crimes unclear
With my patience gone
Someone take me far from here

Burning that gasoline

New day yawning another day of solitaire House is honest Clearly more than I bear Drag me off Before I set my world on fire Out and gone the sun will never Set tonight

Burning that gasoline

No what for's, only a can Of red says danger on it I have found another way Burning that gasoline

Burning that gasoline
