0000000000h

Oooooooooh
Long days and nights you fought for truth
Gotta hand it to you
Uprise and paid for in blood
Only to love
We're gonna hang you up
You've got balls but.....
We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)
Ooooooooooh
Ooooooooooh
Heartache and strife is all you've known
A slave since your youth
And only one life to bargain with
Admiration is due
We're gonna string you up
You've got balls but.....
We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)
Yeah
Fearlessness in the face of death
Pain with a smile
Braving the fight until the end
I know I will never be anything like you
We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)
