

Afterglow

Audrey Horne

Never mind the state I'm in
I'm popping pills to get by
Overrating, calculating every single word you say
Be alright as time goes by
'Cause it heals all wounds they say
Never mind the afterglow
It still burns when I'm gone

Save it all for the afterglow
Gone
Save it for the afterglow

So never mind the afterworld
It is only temporary
And I'll be gone before you're done questioning my actions
I'll be miles away
You'll be here when I'm gone

Save it all for the afterglow
Gone
Save it for the afterglow

You'll be gone when I'm back again
You'll be gone when I return
All is not lost, just cause I fall down
All is not lost just 'cause I'm gone

You'll be gone when I'm back again
You'll be gone when I return
All is not lost, just cause I fall down
All is not lost just 'cause I'm gone

Save it all for the afterglow
Gone
Save it for the afterglow

To never back the afterglow
'Cause it will still burn when I'm gone

To never back the afterglow
'Cause it will still burn when I'm gone
When if I'm gone
