

Angel In Your Eye

Austra

I'm a chemical reaction and my elements are aligned
Baby if I hadn't known you, then I couldn't even start the fight
It's just scared in the walls, looking for a way in
Let me up inside you, or wandering eye

I need it
I need it
I need it
I need it

Dug a magnet, a sentence uncorrupt
You took all my dignity, you placed it with a hand
tears are warm
To lose your
I need it
I need it
I need it
I need it
