

## How Long

**Avalanche City**

How long you looked for  
And never found a thing  
And how long you loved for  
But did nothing

How long you cried for  
And never told them why  
And how long you walked for  
Till you got lost tonight

How long you held up  
Cause you thought no one cared  
And how long you'll live for  
But you'll never understand
