

## London Pt. 2

Avion Roe

Separated all my favorite fears from you  
Washed away my past intentions clear in two  
the best was ll the cause effect of you  
when the worst would come id fall back into you  
but I'm afraid

Couldn't you complicate this i know i was wrong  
(couldn't you)  
Couldn't you complicate this i know i was wrong  
(couldn't you)

You're all i need  
I don't want to live without you  
I don't want to live without you  
Without you

A thousand lies spill out beneath my breath to you  
A common dose of relapse cuts me down in two  
And i waste away you saw and got me through  
You were everything i thought i never knew  
But I'm afraid

Couldn't you complicate this i know i was wrong  
(couldn't you)  
Couldn't you complicate this i know i was wrong  
(couldn't you)

You're all i need  
I dont want to live without you  
I dont want to live without you  
Without you

(Let me be free)

You're all i need  
I dont want to live without you  
I dont want to live without you  
Without you

You're all i need  
I dont want to live without you  
I dont want to live without you  
Without you  
You're all i need  
I dont want to live without you  
I dont want to live without you  
Without you  
Without you  
Without you  
Without you
