

Silent Angel

Axel Rudi Pell

Rainy days, cold nights to remember
who wil I find to stay forever
A life without you, no dreams will come true,
won't be fooled just like a pretender

A whisper in the garden of Eden
like a sound of love and peace on earth

Silent Angel I wanna hold you
Silent Angel in my fantasy
Silent Angel please stay wth me

All alone with a heart of stone
candlelight never burns so bright
how can it be, that between you and me
is no way out, out of misery
