## **Silent Angel**

## **Axel Rudi Pell**

Rainy days, cold nights to remember who wil I find to stay forever
A life without you, no dreams will come true, won't be fooled just like a pretender

A whisper in the garden of Eden like a sound of love and peace on earth

Silent Angel I wanna hold you Silent Angel in my fantasy Silent Angel please stay wth me

All alone with a heart of stone candlelight never burns so bright how can it be, that between you and me is no way out, out of misery
