

A Life for a Life

Axxis

Saw your eyes
In the news
Saw your tired face
All your fear
Blood and tears
Couldn't buy your grace
What I feel down deep inside is just my darker side of
life
You can hide from yourself but you can't hide from me
A life for a life
Want you to kill me, baby
That's your only chance to survive
A life for a life
Can you hear the silence crying
If I'm dead you stay alive
I see pain , killing fields , see your misery
When you're left by yourself - hear the sirens cry
I'm the part of the world responsible for your fate
If I could do something for you I would
A life for a life
I want you to kill me baby
That's your only chance to survive
A life for a life
Can you hear the sirens crying
If I'm dead you stay alive
A life for a life a life for a life
A life for a life a life for a life
If I'm dead you stay alive
A life for a life
I want you to kill me baby...
