

# Touch The Rainbow

Axxis

You watch the clouds and dream  
Follow the flight of birds  
Try to describe the feeling  
But you can find no words  
If you could be a bird  
Then you'd be really free  
Fly into the light  
On to the rainbow - that you see

[Chorus:]

Touch the rainbow  
And all dreams come true  
Spread your wings and  
Feel the breath of the wind  
Touch the rainbow  
And all dreams come true  
Fly high - To breath the air of the sky

Colours of endless beauty  
Painting the deep blue sky  
Stairway to heaven  
Where only eagles fly  
Do you see its beginning?  
Do you see its end  
Only birds know the secret  
As they come flyin' across the land

[Chorus:]

Touch the rainbow  
And all dreams come true  
Spread your wings and  
Feel the breath of the wind  
Touch the rainbow  
And all dreams come true  
Fly high-To breath the air of the sky
