

Back Together

Babybird

Put the car in reverse and come back to me
Without you this house is a hearse without wheels
You can't work out which cringing, which cringing feels worse
When I touch you like this on the place that it hurts

R: Give me all that you have, if you don't I will steal it
All the things that you've lost, I can reel them in
I'm falling apart every minute of every
Hour. But you're there to put me back together
Again, together again, together

When I don't know where you are I feel lost
Your trail feels so warm but I'm covered in frost
When I left in the morning she smelled so good
Then I whispered quite nicely, quite rightly
I can make you feel good, you can make me feel bad
I'll never get you back, so you'll never be sad
