

Love and Devotion

Babyface

Love and devotion
That's what I give you
Honest emotions
That's what I feel
Fire and desire
Whenever I'm near you
My love comes down

And I want to love you
Wherever you go
I want to hold you
Never let go
I want to love you girl
I want you close and I want you right now
Oh girl

Love and affection
That's what I bring you
A heart full of passion
And girl it's for real
No pain is pleasure
I promise to reassure
And love you down

And I want to love you
Wherever you go
I want to hold you
Never let go
I want to love you girl
I want you close and I want you right now
Oh girl

Baby baby baby

And I want to love you
Wherever you go
I want to hold you
Never let go
I want to love you girl
I want you close and I want you right now
Oh girl
