

## Easy Lie

### Backseat Goodbye

What if the sun fell from the sky  
Would you run or try and catch it with those hands you like to  
write with  
Say you're pretty let's get f\*\*ked up and waste the night away  
I've got the time if you don't well just pretend you do  
'Cause yeah it's good to be kind  
And yeah I love being right  
But sometimes wrong turns can lead you to city lights  
Easy is as easy does  
We're the kids that no one loves  
But we're doing just fine  
We've got tomorrow and our lovely lies  
Give us a kiss, we'll make a list  
Of the things we've seen  
And when we get back  
You can tell them but they won't believe  
I don't know if you remember  
The words or the way we used to spend the days  
Well if you do, just keep 'em to you  
'Cause I don't need them anymore
