

Abandon

Backyard Babies

I thought
Release
The endless pain
I think it'll never
Be the same
But I didn't cause
The summer rain
I don't wanna see you
Here again
Again, again
Never again
Never again

I made a move
I thought was right
I had a chance
To stop the fight
But I looked away
And to the side
I never thought
I'd say
It'll be alright
Again, again
Never again
Never again

Cause I'm far away
From everything we knew
But all I see
Reminds me so 'bout you
Face to face
I'm a hopeless case
We go on and I pretend
Cause I'm far away

I don't wanna live
To reverse my life
I had it coming
Cause of my lies
I'm not about being
Number one
But I'm so afraid
That I'm right
And you're wrong

Again, again
Never again
Never again

Cause I'm far away
From everything we knew
But all I see
Reminds me so 'bout you
Face to face
I'm a hopeless case
We go on and I pretend

Cause I'm far away
From everything we knew
But all I see
Reminds me about you
We are face to face
Such a hopeless case
We go on
And I pretend
I'm far away

Again, again
Never again
Never again
