

## Spotlight The Sun

Backyard Babies

It's taken me forever  
But I don't wanna go  
I don't need a reason  
I've been working like a dog

Aaah, strung out on time  
Aaah, strung out on time

I need a bomb  
Exploding in my veins  
And if you lost the power  
You need to rock & roll the dice  
It's losers happy hour

I used to figure out what's in your narrow mind  
But, baby, I think it's working overtime tonight

Aaah, strung out on time  
Aaah, strung out on time

So where did you run

Where did you run  
Lost all the fun  
You can't spotlight the sun

Well, I used to figure out what's in your narrow mind  
But, honey, I think it's working overtime tonight

Aaah, strung out on time  
Aaah, strung out on time  
Aaah, strung out on time  
Aaah, strung out on time
