

Cold As Ice

Bad Boys Blue

We went a long, long way.
We stuck together night and day.
And I shared the best I found with you.
You were a friend of mine.
But sometimes love can make you blind.
You fell for a man and we were through.

And I lost you on my way.
You just told me that you could not stay.
And you took the road back home. And let me walk alone.
And I threw my dreams away.
On a road that made me curse and pray.
You saw love deep in his eyes.
But I knew that he was - cold as ice.

We lived an easy life.
'Cause good friends always will survive.
But men often make girls' hearts turn blue.
Heaven's a part of hell.
What really happened I can't tell.
But sometimes at night I think of you.

And I lost you on my way.
You just told me that you could not stay.
And you took the road back home. And let me walk alone.
And I threw my dreams away.
On a road that made me curse and pray.
You saw love deep in his eyes.
But I knew that he was - cold as ice.

The night of lies will role the dice.
And no disguise for angels.

And I lost you on my way.
You just told me that you could not stay.
And you took the road back home. And let me walk alone.
And I threw my dreams away.
On a road that made me curse and pray.
You saw love deep in his eyes.
But I knew that he was - cold as ice.
