

I Wanna Fly

Bad Boys Blue

I will do everything
I will move any mountain
I would walk every step
It takes to let my dreams come true
Is it right or is it wrong?
No I'm not satisfied at all
Oh, you can't get what you deserved
When you're not feeling strong

I wanna fly to the stars above me
I wanna find a place where I can be what I'm supposed to be
I wanna fly with the birds around me
And watch the world spinning round from high up in the sky

I won't believe anymore
I won't follow everybody
Cause I begin to understand
What life is all about
Now I guess the time is right
For me to move into the light
For you can't see what's going on
When you always tried to hide

I wanna fly to the stars above me
I wanna find a place where I can be what I'm supposed to be
I wanna fly with the birds around me
And watch the world spinning round from high up in the sky
