

# Think About You

Bad Boys Blue

I close my eyes and see you standing there alone in the dark  
Your hair is flowing gently in the wind  
I know that you keep missing me as much as I miss you  
Though we are apart, just apart

Your smile is what I need  
Your touch is what I feel  
Your love - the only thing that's true  
Think about you

There was a time when we walked hand in hand  
Together as one  
We shared the hidden fortunes of our dreams  
We walked through seasons in the sun  
That warmed us tenderly  
Forever in love, you and me

Your smile is what I need  
Your touch is what I feel  
Your love - the only thing that's true  
Think about you

It's a cold and lonely winter of despair and I saw the tears  
Just slowly running down your face like rain  
The winds of change blow through your hair  
And made me feel so sad - we almost lost all we had

Your smile is what I need  
Your touch is what I feel  
Your love - the only thing that's true  
Think about you

Tomorrow is not just another day  
'Cause I will be back  
Back in your arms, back in your life again  
And I will give up everything to feel your tenderness  
Forever with you home at last

Your smile is what I need  
Your touch is what I feel  
Your love - the only thing that's true  
Think about you
