

Silver, Blue and Gold

Bad Company

In the beginning
I believed every
word that you said
Now that your gone
my world is in shreds
Oh you loved me and left me
you took all the things
that I needed so bad
I am standing here wondering
where is the love that I had

Give me silver blue and gold
the color of the sky I'm told
My rainbow is overdue

In the beginning
there was something
of love that was mine
Now that it's gone
oh I am crying
Oh the time that it takes
for a love to grow cold
is a wonder to me
I am walking around
with my head hanging down
Tell me, where is she?

Give me silver blue and gold
the color of the sky I'm told
My rainbow is overdue

Oh don't forsake me cause I love you
Don't forsake me cause I love you

Give me silver blue and gold
the color of the sky I'm told
My rainbow is overdue

Give me silver blue and gold
the color of the sky I'm told
My rainbow is overdue

Give me silver blue and gold
the color of the sky I'm told
My rainbow is overdue

Oh don't forsake me cause I love you
Don't forsake me cause I love you
