

## Back Again

Badfinger

Love me tonight, say you just might  
Make me in the morning, take me without warning, please  
Don't get uptight say it's alright  
When the day is dawning. You can make the most out of me

But if you wake up and I'm gone. I'll be back again  
You filled my nights with your love and played my games

Songs of the road See me alright  
Take me where I'm going Say a little prayer for me  
Doing what I like Tell me it's alright  
See my disposition Give me your prescription, please

And if you wake up and I'm gone I'll be back again  
You filled my nights with your love You played my games

And if you wake up and I'm gone I'll be back again  
You filled my nights with your love. You played my games
