

Love Is Easy

Badfinger

All I needed was your smile
Sayin' it alright, I don't mind
All I wanted was my chance
Baby, I could learn to dance

Well, love is easy, love is strange
Different people, different games
People, people, love a lot
Feel the love inside your heart

Love is easy, easy
When you've opened up your heart
Love is easy, easy
When you know you'll never part

Well, love is easy, love is strange
Different people, different games
People, people, love a lot
Feel the love inside your heart

Love is, love is easy, said easy
When you've opened up your heart
Easy, easy
When you know you'll never part

I said easy, c'mon easy
When you've opened up your heart
Yeah easy, easy
When you know you'll never part

Said easy, easy when you know
You're not alone, easy, easy
