

Prejudice

Badlands

For some you're never right, all you can do is wrong
Careful with what I say, to the oppressed I do belong
Judged by the paranoid, it's once again them spreading lies
They will condemn you too, we're innocents paying the price

Fight the prejudice causing contamination
Innocents getting the blame without having a say
Justice seemed to be abandoned in this nation
Got to face these biased ways

Fragments shown on TV with comments based on lies
I'm searching for the truth, it's like rolling a dice
It's often said they don't manipulate round here
But without a single reason they're spreading hate and fear
