

# Winter's Call

Badlands

Fall leaves have changed their color  
Winter's on its way  
I'm lookin' for the sunny part of town  
And leaving on, I hear the wicked cold winds call me  
They say, don't fly away

Ooh, oh, oh, ah-ha, ha  
Drink the warm wines  
Feel the heat from a fire's blaze  
You take a long walk in those lonely winter days  
You hear her cry out in the cold baby hold me, hold me  
Don't fly away  
Ooh, oh, oh, oh, oh

Winter's cold winds call me  
Gonna leave it all behind  
Summer breezes fill my mind, fill my mind  
Oh, yes they do now

Winter's cold winds call me  
Gonna leave it all behind  
Summer breezes fill my mind, fill my mind

All your love is what I need from you  
All your love is gonna keep me warm through the winter's storm  
I give it to you baby  
Give it to me now mama

Winter's cold winds call me  
Gonna leave it all behind  
Summer breezes fill my mind, they fill my mind

All your love is what I need from you  
All your love is gonna keep me warm through the winter's storm  
I give it to you baby  
I give it to you now mama  
Give it to you baby  
All you love, oh, stick it

(Solo)

All your love is what I need from you  
All your love is gonna keep me warm, so warm  
All your love is what I need from you  
All your love is gonna keep me warm through the winter's storm  
I give it to you, baby  
Give it to me now, mama  
I give to you, baby  
Give it to me now, baby, oh ah

All your love, all your love, all your love, all your love  
I need it from you baby (all your love)  
Give it to me now mama (all your love)  
All your love, all your love  
Give it to me now, baby  
Give it to you now, mama  
All your love, all your love

All your love, all your love  
Love, oh  
It's what I need from you baby
