

Epitaph

Badly Drawn Boy

Please don't leave me wanting more
I hope you never die
There's no need to say why
Just promise that you'll try
To give me all you can
I'll never ask for more
There's a new life thru the door
A cradle rocks and falls
Cements the melody
Our troubles passing

Through decaying, simple times
I'll tread on your tail with pride
C'est maintenant decide
I've nothing better

Please don't leave me wanting more
I hope you never die
There's no need to say why
Just promise that you'll try
