

Walk Right Out

Ball Park Music

I gave the wrong face and yes to smiles
I'll see what's planned, I'll come for a while
I'll come for a while

I don't mind that I can see
It's blind to appear but not to be seen
Not to be seen

And I walked right out
Couldn't stick around, couldn't last the night
The walls came down
I don't need to be, to be with me

So hold my hand while I kick and scream
Stop your marching like a hungry fiend
A hungry fiend

Cause I don't fight back, I just weep
Oh, and I surrender to all your needs
All your needs

And I walked right out
Couldn't stick around, couldn't last the night
The walls came down
I don't need to be, to be with me

I walked right out
Couldn't stick around, couldn't last the night
The walls came down
I don't need to be, to be with me

And I don't fight back, I just weep
And I surrender to all your needs

I don't mind that I can see
It's blind to appear but not to be seen

And I walked right out
Couldn't stick around, couldn't last the night
The walls came down
I don't have to be, to be with me, no
