

There's a place,  
I think that you could take me there.  
If you only showed me where...  
Cause I've been waiting in despair  
If there's a need  
To lose my rights and change my name  
It is the creed  
Cause these rooms starts to feel the same

If the fire comes too close, don't bother  
Cause the tides swallows one after another

Sometimes your shadow  
And I will hold it by the hand  
Cause when darkness fell  
I picked it up and did first hand

If the fire comes too close, don't bother  
Cause the tides swallows one after another  
If the freezing starts to win, don't bother  
Cause I'm your follower and you're my lover

Picking up the card my lover  
Roll the curtains and the cover  
I will line up in your shadow  
Sweep the dirty road I follow

Picking up the card my lover  
Roll the curtains and the cover  
I will line up in your shadow  
Sweep the dirty road I follow

If the fire comes too close, don't bother  
Cause the tides swallows one after another  
If the freezing starts to limb, don't bother  
Cause I'm your follower and you're my lover
