

Little Boy Blue

Bang

Oh! Little Boy Blue, now where you going to
Your eyes are showing tears
I've never seen before
Sure it's hard, but you'll get by
For someday soon
Your gonna find
What you've been waiting for

Look beyond the stars
To your dreams that shine forever on
Look past the shadows
For they'll remain until your dead and gone
Don't you know
Everything will work out in the end my friend

Oh! Little Boy Blue, don't be sad, it's true
That all your dreams will turn the darkness into day
Can't you see, there's always hope
There's no one there, who can take it all away

Look beyond the stars
To your dreams that shine forever on
Look past the shadows
For they'll remain until your dead and gone
Don't you know
Everything will work out in the end my friend
