Good Love Child

Barclay James Harvest

Get up, get up, get up, child Get off your knees Take it, take it, take it, I'm easy We're here to please Put your hands in the air Put your feet on the ground Put your mind in a dream 'Cause there's nothing we ain't seen Good love child You know what I mean Good love child You've got to keep it clean Good love child Gonna steal the scene

Make love, make love, make love, child And make it mean Take love, take love, take love, child And keep it clean Put your hands in the air Put your feet on the ground Put your mind in a dream 'Cause there's nothing we ain't seen Good love child You know what I mean Good love child You've got to keep it clean Good love child Gonna steal the scene

Get up, get up, get up, child Get off your knees Take it, take it, take it, I'm easy It's here to squeeze Put your hands in the air Put your feet on the ground Put your mind in a dream 'Cause there's nothing we ain't seen Good love child You know what I mean Good love child You've got to keep it clean Good love child Gonna steal the scene
