She Said

Barclay James Harvest

```
She said, "Why don't you come and stay with me Far away from people we know?
We could live our lives together
Happiness wherever we go"

And I will always love her
And I will always care
And I will always love her
```

Wasn't long before she grew tired of me And the life she thought would redeem All the love she'd thrown away as a child All the things she thought she had seen

And I will always love her And I will always care And I will always love her And I will always love her And I will always care And I will always love her
