

Girls Of The Night

Bardot

We're getting bored of the nightlife
Gonna move this night up to where we want it to be
When I'm down and the girls come 'round, gotta shake the town
Cause we're feeling kinda funky tonight

Look over there (where?), see the guy with the bad hair
He thinks he's hotti, but he's notti, do we really care
We hear the club is pumpin', and the bass is really thumpin'
See the queue (oh no!) we're jumpin'!
We are the girls of the night, feeling high

Me and the girls just wanna have fun tonight
Feelin' hot, feeling fun with the girls all night
Takin' time out is what it's all about tonight
Cause we're feelin' kinda funky x 2

We take the town on without a care, sexy underwear
Gonna cause some trouble out there
Lipstick's on and we jump in the car, acting like a star
Got a feeling this party's alright

Look over there (there!) I think I've found the club I swear
That club is movin' yeah it's groovin', gotta go in there
With the girls, feels so right

Me and the girls just wanna have fun tonight
Feelin' hot, feeling fun with the girls all night
Takin' time out is what it's all about tonight
Cause we're feelin' kinda funky

Bridge (To LA)
We are the girls of the night, feeling high
We are the girls of the night, feels so right

Me and the girls just wanna have fun tonight
Feelin' hot, feeling fun with the girls all night
Takin' time out is what it's all about tonight
Cause we're feelin' kinda funky (repeat to fade)
