

I Need Somebody

Bardot

Don't need anybody messin with you
I want you just the way you are
Don't want anything that you can give me
Keep your money and your car

You bring me your joy
And your love it makes me sing
It's got me going
It feels like a dream
My heart is on fire and filled with such desire
Now I promise to be where you are

I need somebody
I want a lover and a good love too
I want somebody
That's gonna turn me on the way you do

So good doin what you doin baby
Got me cryin out for more
So good screamin and shoutin baby
When you take me on the floor

You bring me your joy
And your love it makes me sing
It's got me going
It feels like a dream
My heart is on fire and filled with such desire
Now I promise to be where you are

I need somebody
I want a lover and a good love too
I want somebody
That's gonna turn me on the way you do

I need somebody
I want a lover and a good love too
I want somebody
That's gonna turn me on the way you do

Oh unbelievable that's what I'm looking for
So incredible look no more
Now you got me going

When you need somebody
Lover and a good love too
Really want somebody
Turn me on the way you do
Really need somebody
Lover and a good love too
Really want somebody
Turn me on the way you do

Need somebody
Oh you know i do
Ohhhhh turn me on the way you do

I need somebody

I want a lover and a good love too
I want somebody
That's gonna turn me on the way you do
