I Need Somebody

Don't need anybody messin with you I want you just the way you are Don't want anything that you can give me Keep your money and your car

You bring me your joy And your love it makes me sing It's got me going It feels like a dream My heart is on fire and filled with such desire Now I promise to be where you are

I need somebody I want a lover and a good love too I want somebody That's gonna turn me on the way you do

So good doin what you doin baby Got me cryin out for more So good screamin and shoutin baby When you take me on the floor

You bring me your joy And your love it makes me sing It's got me going It feels like a dream My heart is on fire and filled with such desire Now I promise to be where you are

I need somebody I want a lover and a good love too I want somebody That's gonna turn me on the way you do

I need somebody I want a lover and a good love too I want somebody That's gonna turn me on the way you do
